New Feature Information for Catalogic DPX 4.6.1

Feature	Description	Benefit
DPX Core Improvements		
SAP HANA Backup and recovery	SAP certified DPX Plugin for SAP HANA. Provides backup and recovery via backint SAP HANA module.	Extends DPX backup and recovery functionality to SAP HANA environments.
On-demand provisioning of Disk Directory media	Disk Directory media is automatically provisioned in media pools.	Improves the usability for Disk Directory by removing the need to create media volumes.
Cloud Destination Improvements		
Archive to cloud support for NetApp StorageGRID	Provides the ability to protect NDMP backup and archive agentless data to NetApp StorageGRID via the AWS S3 REST APIs.	Extends agentless archive and NDMP protection cloud destinations for anytime, anywhere recovery.
Application Enhancements		
Microsoft SQL Server 2019	Microsoft SQL 2019 is supported for block level backup.	Expands support matrix for Microsoft SQL users.
Microsoft Exchange 2019 IP-less DAG	Microsoft Exchange 2019 is supported for block level backup for IP-less DAG configuration.	Supports a wider range of end user use cases.
New Platform Support		
NetApp ONTAP 9.6	NetApp Clustered Data ONTAP 9.6 is supported in compatibility mode.	Extends DPX support to the latest ONTAP release.
NetApp ONTAP 9.7	NetApp Clustered Data ONTAP 9.7 is supported in compatibility mode.	Extends DPX support to the latest ONTAP release.
